Job Title: Operator

Location: Thane, Mumbai

Department: Pilot Plant (Incubation Center – COE Sportech)

Job Summary:

We are seeking a detail-oriented and experienced Weaving Machine Operator to join our textile manufacturing team. The ideal candidate will be responsible for setting up, operating, monitoring, and maintaining weaving looms to produce high-quality woven fabrics according to production standards and schedules.

Key Responsibilities:

- Operate and monitor weaving /warping machines (e.g., shuttle looms, rapier looms, hand looms, etc.).
- Load yarns and ensure proper threading of warp and weft.
- Adjust machine settings for different fabric types and production runs.
- Inspect fabric for defects and ensure it meets quality standards.
- Perform routine machine maintenance and report any mechanical issues.
- Keep records of production output, downtime, and material usage.
- Replace broken or worn-out parts such as heddles, reeds, and bobbins.
- To work on the other allocated machines as and when required.
- Maintain a clean and safe work environment.
- Follow all company policies, safety standards, and procedures.

Qualifications and Skills:

- High school diploma or equivalent
- Minimum of 10 years of experience operating weaving or textile machinery.
- Basic mechanical and troubleshooting skills.
- Ability to read technical instructions and fabric specifications.
